Quick recap (grammar)

- Past simple in Estonian is made by using different version of morpheme **-s**.
- If it's not 3rd person: verb stem+morpheme **-si-**+pronoun ending
- There are **exceptions**, like verbs with double vowel in stem (II type) and tegema/pidama (III type).
- II type: verb stem w/ shortened vowel+ **-si-** (-s/-is for 3rd person)+ pronoun ending
- Ex: laul/ma-laul/an-laul/si/n
Keeldu/ma-keeldu/b-keeldu/s

Grammar: Sentence negation

- Works same way as in English and Finnish
- There are different ways to express the negation depending on the time tense (4)
- But we will only cover 2 of them: present and past simple

Negation in present tense

- Ei+ verb stem + (da-infinitive)
- Da-infinitive: often verb stem+ -ta/-da, but it's actually very intuitive!
- Some verbs don't even use the da-infinitive at all, instead they just use the stem (see examples on next slide)
- I highly recommend using Sõnaveeb to check

- Ex:

Sõitma-sõida (to drive)

Saama-saada (to get)

Olema-olla (to be)

Minema-minna (to go)

Kuulma- kuulda (to hear)

More examples

- Tead/ma (to know) -> undergoes consonant gradation d-0

Ma tean. -I know

Ma ei tea. - I don't know

- Jooma (to drink):

Ta joob. - He/she drinks/is drinking

Ta ei joo. - He/she is not drinking

More examples

- **Kuula/ma** (to listen) (NB! Do not confuse it with "kuulma", it means "to hear")

Nad kuulavad. - They listen

Nad ei kuula.- They are not listening/ They don't listen

- **Õpetama** (to teach)

Sa õpetad. - You are teaching/ You teach

Sa ei õpeta. - You are not teaching

If you want to say that you don't want to do something or use multiple verbs in present

- Ei+ verb stem of first verb + da-infinitive of second verb
- Generally the rule works if you want to make a complex negated sentence with more than one verb
- Ex:

Ma **ei** **taha** seda juua. - I don't want to drink this/that.

Sa **ei** **taha** sinna minna. - You don't want to go there.

Kui sa **ütle**d, et see asi seal **on** nii halb, siis ma **ei** **soovi** seda **selga** proovida.- If you **say**, that this thing there **is** so bad, then I don't wish/don't want to try it on

Think you got it? Try to answer these:

- Negate these verbs:

Tantsi/ma

Soovi/ma

Meeldi/ma

Answer:

- Ei tantsi
- Ei soovi
- Ei meeldi
- Da-infinitive:
 - Tantsida
 - Soovida
 - meeldida

Negating in past simple tense

- Ei+ verb stem+ -nud
- Ex:

Taht/ma-taha/n-**ei** taht/nud- to want-I want- I didn't want

Soovi/ma-soovi/d-**ei** soovi/nud- to wish/to want- you wish/want- you didn't want/wish
